

Q.HOME CORE G3

Reliable Power, Day and Night.

With rising electricity rates and changing net metering rules, take control of your home energy with battery storage.

Helps Lower Your Electric Bills

Store daytime solar power and use it when utility rates reach nighttime peaks

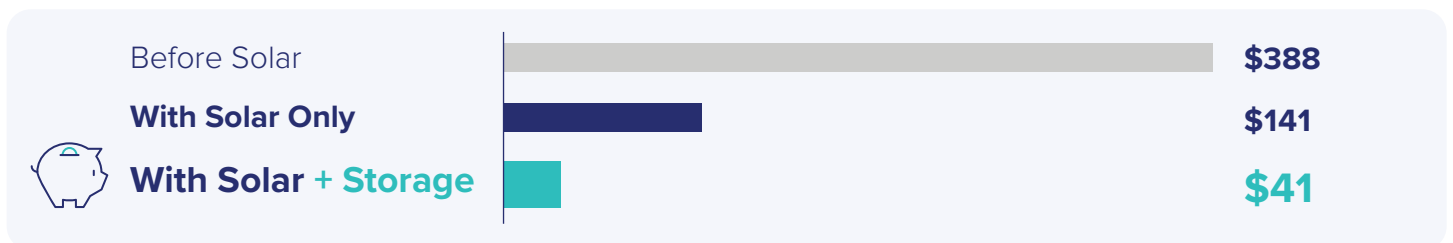

Smart Energy Control

Monitor system performance in real-time at your fingertips with the Q.OMMAND HOME app.

Backup Power Protection

Keep the lights and essential appliances on during grid outages with optional add-on battery backup capability.

See the Impact of Storage on Your Monthly Utility Bill

Adding storage can add significant savings on top of solar, up to \$1,200+ per year!*

*Example based on actual California homeowner under NEM 3.0. Results vary based on usage, system size, and utility rates.

Why Choose Qcells?

One Brand. One Warrantor.

	Qcells	Other Manufacturers
